SECTION A: ANSWER ALL QUESTIONS

1. Examine any two of the following ethical principles in the context of gender diverse groups within African cultural nuances (8 marks)
 - a) Autonomy
 - b) Justice
 - c) Beneficence
 - d) Non-maleficence
2. Outline the unique gender based violence challenges faced by non-binary, transgender, and gender non-conforming individuals in accessing health services. (6 marks)

SECTION B: ANSWER ANY 3 QUESTIONS ONLY (45 MARKS)

3. Binti a commercial sex worker and a bi sexual lived in a border town located in the Northern District. On 5 May 2020, at around 8.00 am she developed lower abdominal pains while at her home. She took some local medicinal herbs to alleviate her pain since she could not afford health services at the nearest private clinic. However, a health care worker at the clinic refused to attend to her upon learning that she was a lesbian, who deemed her as immoral. The next health care facility she went to, upon examination discovered that she had miscarried. The doctor cleaned Binti and decided to perform tubal ligation without her consent to prevent her from conceiving and giving birth to “immoral” children, because according to him, lesbian couples should not be allowed to raise children. Discuss the human rights issues arising from the case above? (15 marks)
4. Critique the concept of gender binary and its effects on gender diverse people in accessing health care. (15 marks).
5. In 2020, the ABC organization, based in Wakanda, petitioned the government on behalf of one of its members called Hillary. Hillary, who possesses intersex biological characteristics, had been incarcerated in a male-only prison facility. He faced charges related to engaging in sexual activity with a person of the same gender—an offense categorized as “against the order of nature” in the Penal Code, carrying a one-year prison sentence. During Hillary’s detention, he was taken to a hospital for gender verification, where doctors confirmed ambiguous genitalia. Subsequently, a court order remanded Hillary to a male detention facility, where he shared cells and other facilities with male inmates. Unfortunately, Hillary reported experiencing abuse, mockery, ridicule, inhumane treatment, and sexual assault by fellow male inmates. Despite Hillary’s request for assignment to a special non-binary cell, prison authorities denied it. Their response cited adherence to policies and the XYZ Constitution, which only recognize male and female

genders, with prison facilities designed exclusively for males. The ABC organization advocates for legal, policy, and institutional reforms to recognize Hillary's gender identity. This petition was brought to your office. As the advisor to the Cabinet Secretary for Ministry of diversity, gender, inclusion and belonging, write an advisory letter to the Cabinet Secretary detailing aspects of the laws and policies you want in place to address the concerns raised in the petition. (15 marks).

6. Cultural norms and stereotypes often perpetuate gender-based violence to gender diverse groups. Using relevant examples and intersectional analysis,
 - a) Explore how these norms interact with factors such as race, class and sexuality to perpetuate GBV. (7 marks)
 - b) Discuss effective strategies and interventions that challenge these cultural attitudes and behaviors, emphasizing the importance of intersectional approaches in combating GBV. (8 marks)
