10. Project outcomes provide a means of telling whether a project is successful and if it has the desired impact. Identify FOUR measures that show the success of a program. [4 Marks]

SECTION B (60 MARKS)

Answer Any THREE Questions in This Section

11. The Sub-County Health Officer has called an emergency stakeholder meeting due to the alarming rise in cases of gender-based violence in sub-county Y. As the leading Community Health Assistant, you are tasked with developing an activity schedule.
- a) Explain the difference between outcomes and activities. [2 Marks]
 - b) Provide SIX expected outcomes against SIX expected health activities you will include in your schedule. [12 Marks]
 - c) Describe the THREE different types of outcomes applied in monitoring and evaluation, giving an appropriate example in each case. [6 Marks]
12. A newly employed community health assistant has sought your help in conducting monitoring for a project that is being carried out in his community health unit. As a more experienced officer, you are expected to explain to them the process of monitoring a project.
- a) Explain THREE reasons for carrying out monitoring. [6 Marks]
 - b) Elaborate SEVEN steps followed in conducting the monitoring of a health project. [14 Marks]
13. During the induction of newly employed community health assistants, you are assigned the role of training them on the importance of quality monitoring and evaluation reporting.
- a) Describe FIVE components of a monitoring and evaluation findings report you will include in the training. [10 Marks]
 - b) Providing relevant examples, describe FIVE questions considered when developing a monitoring and evaluation schedule. [10 Marks]
14. The County Health Officer of County X has reported that there is a high incidence of girls dropping out of school in the year 2024; and teenage pregnancies was one of the leading causes for the dropouts. The number of teenage pregnancies in the county had increased by 60% in the same year; from 2760 to 6900. As the Community Health Assistant in the county, you are tasked with developing and taking the Community Health Practitioners through a Monitoring and Evaluation plan to improve the school attendance by teenage girls in county X.
- a) Develop a monitoring and evaluation plan you will use in the training. [14 Marks]

- b) Data collation is an important component of organizing data before it can be analyzed. Explain THREE procedures of data collation. [6 Marks]
