**SECTION B (60 MARKS)**

*Question 11 is compulsory and answer any other TWO questions*

**Read the case study below and answer the questions that follow**

11. Cheplagat, a dedicated and licensed home-based caregiver, holds the esteemed position of director at the Wazalendo Home-Based Caregivers Organization. She was specifically appointed to extend her compassionate services to two families residing in the Moligot area, with the households located approximately five kilometres apart. Recognizing the paramount importance of delivering top-notch care, Cheplagat meticulously crafted individual care plans tailored to each family's unique needs. These plans served as invaluable guides, allowing her to navigate her interactions with each client and maintain effective communication with both households. Showing exceptional dedication, Cheplagat diligently documented every single step and progress made during her caregiving interventions. This comprehensive documentation not only enabled her to enhance the quality of her services to the families but also served as a rich resource for training and mentoring her fellow employees within the organization.
- a) Relating from the above case, discuss FIVE importance of individual care plans. (10 Marks)
- b) Explain FIVE Importance of procedural documentation. (10 Marks)
12. Data collection from a client and his/her family members is important in understanding the history and background of a client.
